Submitter information

Personally Identifiable Information (PII) about Change Request (CR) submitters is hidden from view by public users. This information is shared with staff and members of the ATA e-Business Program for the purpose of reviewing and managing CRs.

Change Request lifecycle

As CRs go through their [lifecycle](#), they are assigned one of the following Statuses:

Open Statuses

- **NEW:** Assigned to newly submitted CRs
- **INWORK:** Assigned to a CR that has been assigned to a Working Group for review and/or further development
- **ESG APPROVAL REVIEW:** Assigned to a CR when it has received Working Group approval and has been referred to the ATA e-Business Steering Group (ESG) for final review
- **APPROVED:** Assigned to a CR that has received final approval from the ESG
- **RETURNED TO SUBMITTER:** Assigned to a CR that needs additional information or clarification from the submitter
- **RETURNED TO WG:** Assigned to a CR that has been returned to a Working Group by the ESG to address concerns

Closed Statuses

- **COMPLETED:** Assigned to a CR that has been incorporated into a specification
- **DISAPPROVED:** Assigned to a CR that has not been accepted/approved by the Working Group responsible for the specification named in the CR
- **WITHDRAWN:** Assigned to a CR that has been withdrawn by the submitter
